 Hello World!

I'm a 22-year-old curious, creative problem-solver who's slightly obsessed with how technology can make life easier—and better. Code and front-end interfaces are my playground, where I've spent my studies learning to build interactive websites and applications. My focus? Balancing sharp technical know-how with engaging, user-friendly designs that work for people.

 Experience

- Conmodo - Servicetekniker - Sommarjobb

Juni 2024- Augsti 2024
